

PROJECT	We come green and decent jobs for the youth
Traning center name	Mengo vocatonal Institute
Course	Barista Class
Reporting month	27 th April 2026
Instructors name	Hassan Uled muhammad
Date of submission	23 rd may 2026

Introduction

The barista training commenced on 27th April 2026 under we work green and decent jobs for the Youth project. The aim of the training is to equip youths with practical employable skills in food and drinks, preparation, hygiene, customer care, and entrepreneurship. A total of 34 trainees were enrolled during this reporting period.

Training Objectives

- I went through with the students all the equipments and tools that a barista should have when starting a coffee shop.
- I taught them how a barista should learn many ways and techniques of making latte art.
- I took them through how a barista should cooperate with others and always work together as a team.

Topics/Modules covered

Week	Topic	Practical Activities	Duration
Week 1	Coffee Shop Safety	Identifying coffee shop hazards	8hours
Week 2	Coffee Preparation	Preparing all types of coffee	8 hours
Week 3	Latte art	Making Cappiccino	7hours
Week 4	Customer care	How a barista should act	8hours

Trainee Attendance and Participation

Attendance Category	Number
Total enrolled	34
Regular attendees	28
Irregular attendees	22
Dropouts	3

Most trainees actively participated in both theory and practical sessions. Group discussions and practical demonstrations increased learner engagement.

Skills Acquired by Trainees

1. What my Baristas can do:

- Cappiccuno
- Smoothies
- Espresso
- Milkshakes
- Tea

2. The trainees can clean and wash the dirty cups and work in a clean environment

3. The trainees can also keep the equipments in a safe place

4. The can all work in a team because they have learned it in class.

5. They know now how to talk to customers and handle clients professionally.

Assessments Conducted

Practical tests

- I gave the students a test of making different coffees and tea.

Oral questions

- Draw a latte art on a cup of cappiccino

Group Assignment

- How to steam milk

Observation during practical sessions

All the students perfected on how to make coffee

Assessment Conducted	Date	Performance Summary
Practical Latter art	10 th April 2026	Majority perfomed well
Hygiene assessment	20 th May 2026	Good understanding observed

Achievements and Success Stories

- Some trainees have started preparing smoothies, juices, coffees and tea.

Challenges Faced

- Power interrruptions
- Absentism

Recommendations

- More time should be allocated for practical lessons
- Additional equipment is needed

Green Practices Intergrated

- All baristas were encouraged to work as a team in minimising coffee wastage and maintain a clean enviroment during training.

Work Plan For Next Reporting Period

Planned Activity	Expected Date
Advanced Practical Sessions	June 2026
Customer Service	June 2026
Continous Assessments	Ongoing

Conclution

All training progress during the reporting period was satisfactory. Most trainees actively participated and demonstrated improvement in both practical and the trainees are all good at preparing both cold and hot beverages.
